4+	2+	4	End-to-End
Years in Software Delivery	Years Implementing HMS	Database Platforms	Setup → Training → Go-Live

PROFESSIONAL SUMMARY

Software Implementation & Support Engineer with **4+ years in software delivery**, currently deploying and supporting **Heartbeat Hospital Management Software** at Tanjer Infosystems, Dubai. Experienced in taking hospital clients from **Apache Tomcat and MySQL Server setup** through configuration, staff training and go-live — resolving client–server issues, building BIRT reports and integrating peripheral hardware along the way. A software engineering background in mobile and backend development (Xamarin.Forms, .NET MAUI, Flutter) helps in understanding application behaviour, diagnosing problems quickly and communicating clearly with both technical teams and hospital staff.

CORE COMPETENCIES

- **End-to-end HMS implementation & go-live**
- **Apache Tomcat installation & deployment**
- **MySQL Server setup & administration**
- **Client–server troubleshooting**
- **BIRT report development**
- **End-user training & product demos**
- **Peripheral hardware integration**
- **Onsite client support**

PROFESSIONAL EXPERIENCE

Software Implementation Executive

Aug 2024 – Oct 2026

Tanjer Infosystems LLC · Dubai, UAE

PRODUCT **Heartbeat – Hospital Management Software**
STACK Web application hosted on Apache Tomcat · Data managed on MySQL Server · Reporting with BIRT

- Implement **Heartbeat** hospital management software at client healthcare facilities, covering environment setup, configuration, user training and go-live.
- Install and configure **Apache Tomcat** servers to host the Heartbeat web application, including application deployment, service setup and secure access.
- Install, configure and maintain **MySQL Server** databases for Heartbeat, managing database setup, user privileges and data integrity.
- Diagnose and resolve **client–server communication issues** between end-user machines, the Tomcat application server and the MySQL database.
- Develop and customise **BIRT reports** on Heartbeat data, turning hospital operational data into insights for management and departments.
- Deliver product demonstrations and **end-user training** for hospital staff across clinical and administrative departments.
- Configure and integrate peripheral hardware used with Heartbeat, such as signature pads, printers and tablets.
- Provide **onsite client support** and troubleshooting during deployments and post-go-live stabilisation.

Software Engineer L4

Mar 2022 – Jul 2024

Claysys Technologies (P) Ltd · Kerala, India

- Developed cross-platform mobile applications using **Xamarin.Forms, .NET MAUI and Flutter**.
- Integrated third-party APIs and SDKs to extend application functionality.
- Optimised Android (Kotlin) and iOS (Swift) components for performance.
- Debugged and resolved multi-platform issues to keep applications stable.
- Implemented **CI/CD workflows** to streamline build and deployment.

TECHNICAL SKILLS

Application Servers	Apache Tomcat, Vercel, Railway, Supabase, Netlify
Databases	MySQL Server, MSSQL, PostgreSQL, MongoDB
Reporting	BIRT (Business Intelligence and Reporting Tools)
Languages	Java, SQL, C#, JavaScript, Python, Dart, HTML, CSS
Frameworks	ASP.NET Core, .NET MAUI, Xamarin.Forms, Flutter
Tools & Platforms	Git, Docker, Azure DevOps, REST APIs, CI/CD Pipelines, Supabase
Hardware	Signature pads, printers, tablets

PROJECTS

Yoton | **Hospital Management System**
Web App & Mobile App
Full-stack hospital management platform with a mobile application, implementing authentication, REST APIs and scalable backend services.
github.com/classmate-projects/yoton

YourQ | **Hospital Token Management System**
Queue Management · Backend Logic
Digital queue system for hospitals to manage patient tokens, with backend logic for token generation and queue handling.
github.com/classmate-projects/yourq

Voyago | **Smart Tour Guide Platform**
Mobile app
Full-stack travel platform on the MERN stack with authentication, APIs and scalable backend services.
github.com/classmate-projects/Voyago

CViN | **CV Desk – Resume Collection & Filtering**
Recruitment Tech · Data Filtering
Platform for collecting incoming resumes, with filtering tools for recruiters to manage candidate data.
github.com/classmate-projects/CViN

EDUCATION

Master of Computer Applications (MCA) — **2020 – 2022**
University of Calicut

Bachelor of Computer Applications (BCA) — **2017 – 2020**
University of Calicut
