Years in Software Engineering	Cross-Platform Mobile Frameworks	Years Delivering Heartbeat HMS	Personal Projects on GitHub

PROFESSIONAL SUMMARY

Software Engineer with **4+ years of experience** building cross-platform mobile apps, backend services and full-stack web solutions, and taking them through to live client deployment. Currently at **Tanjer Infosystems LLC**, deploying and supporting **Heartbeat**, a hospital management software hosted on **Apache Tomcat** with data managed on **MySQL Server**. Hands-on across **C# / .NET** (ASP.NET Core, .NET MAUI, Xamarin.Forms), **Flutter** and the **MERN stack**, with strong foundations in API integration, SQL & NoSQL databases and CI/CD. Passionate about turning real-world problems into scalable, reliable software.

CORE COMPETENCIES

- **Cross-Platform Mobile Development**
- **Backend Services & REST APIs**
- **Full-Stack Web (MERN)**
- **Third-Party API & SDK Integration**
- **SQL & NoSQL Databases**
- **Apache Tomcat & MySQL Deployment**
- **CI/CD Workflows**
- **BIRT Report Development**

TECHNICAL SKILLS

Languages	C#, JavaScript, Python, Dart, Java, SQL, HTML5, CSS3
Backend & Web	ASP.NET Core, Node.js, Express.js, React.js, REST APIs
Mobile	.NET MAUI, Xamarin.Forms, Flutter, Android (Kotlin), iOS (Swift)
Application Server	Apache Tomcat, Vercel, Railway, Supabase, Netlify
Databases	MySQL Server, MSSQL, PostgreSQL, MongoDB, Supabase
DevOps & Tools	Git, Docker, Azure DevOps, CI/CD Pipelines
Reporting	BIRT (Business Intelligence and Reporting Tools)

PROFESSIONAL EXPERIENCE

Software Implementation Executive

Aug 2024 – Oct 2026

Tanjer Infosystems LLC · *Dubai, UAE*

PRODUCT STACK — **Heartbeat – Hospital Management Software**
Web application on Apache Tomcat · Data on MySQL Server · Reporting with BIRT

- Deploy and configure **Heartbeat hospital management software** for client hospitals, from server setup through go-live.
- Install and configure **Apache Tomcat** servers to host the Heartbeat web application securely in production.
- Set up and manage the **MySQL Server** databases that store Heartbeat's hospital data.
- Diagnose and resolve **client–server communication issues** across end-user machines, Tomcat and MySQL, keeping production applications stable and performant.
- Design and customise **BIRT reports** on Heartbeat data that turn hospital operational data into clear, actionable insights.
- Lead **technical demonstrations and end-user training**, driving smooth adoption of Heartbeat by hospital staff.
- Provide **onsite deployment support** and troubleshooting, including integration of signature pads, printers and tablets.

Software Engineer L4 — Mar 2022 – Jul 2024

Claysys Technologies (P) Ltd · *Kerala, India*

- Engineered **cross-platform mobile applications** for Android and iOS using **Xamarin.Forms, .NET MAUI and Flutter**.
- Integrated **third-party APIs and SDKs** to extend application functionality and deliver new client-facing features.
- Optimised native **Android (Kotlin)** and **iOS (Swift)** components to improve app performance and responsiveness.
- Debugged and resolved complex **multi-platform issues**, strengthening application stability across platforms.
- Implemented **CI/CD workflows** that streamlined the build and deployment process.

KEY PROJECTS

Yoton | Hospital Management System
Web App · Mobile App
Full-stack hospital management platform with a mobile app, secure authentication, REST APIs and scalable backend services.
github.com/classmate-projects/yoton

YourQ | Hospital Token Management
Queue Management · Backend Logic
Digital queue system that helps hospitals manage patient tokens, with backend logic for token generation and queue handling.
github.com/classmate-projects/yourq

Voyago | Smart Tour Guide Platform
Mobile App
Full-stack travel platform with user authentication, REST APIs and scalable backend services.
github.com/classmate-projects/Voyago

CViN | CV Desk – Resume Management
Recruitment Tech · Data Filtering
Resume collection and management platform with filtering tools that help recruiters screen candidate data.
github.com/classmate-projects/CViN

EDUCATION

Master of Computer Applications (MCA) — 2020 – 2022
University of Calicut

Bachelor of Computer Applications (BCA) — 2017 – 2020
University of Calicut
